Sovereign Fortune Force Ultra
Intelligent High Clarity High Force Coolant Delivery System
with Automated Coolant Controller

- The Single Most Productivity Tool for High Speed Machining.

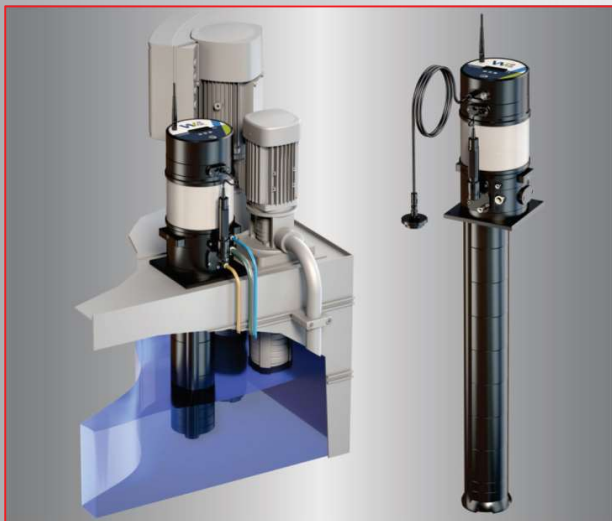

Designed for Clean and Green Machining and for Industry 4.0

Sovereign Fortune Force Ultra
Intelligent High Clarity High Force Coolant Delivery System with Automated Coolant Controller

Scientifically, the selection of Coolant, its Concentration, Volume & Delivery Pressure for High Speed Machining are dependent on:

- The Material of component.
- The Energy that is put at the point of cut through the spindle power of the CNC.
- The type of Tool engaged & its Geometry.
- Finally the process itself i.e; whether it is Drilling, Milling, Turning, Boring, Reaming, Tapping etc.
- Sovereign Fortune Force Ultra through its Intelligent & High Performance configuration precisely helps to accomplish the prime requirement of Coolant Concentration and Force coupled with High Clarity for High Performance Machining process.

Will-Fill Automated Coolant Controller

The basic requirement of lubricity, heat dissipation & chip evacuation is met so effectively & efficiently with Sovereign Fortune Force Ultra, that the High Speed Machining process is rendered clean, green, amazingly rewarding & enriching.

Customer Benefits:

- Amazing Productivity
- Excellent Finish & Concentricity
- Great Tool & Coolant Performance
- Effective Chip Evacuations-Cleaner Component
- Stress Free & Smooth Machining-eliminates fatigue
- Brilliant Energy Efficiency
- Superb Resource Efficiency
- Low Cost & Carbon Label per Component
- Rewarding Profits
- Sustained Reliable Process
- Ergonomic Design
